

沙特阿拉伯 农药产品登记材料要求
REGISTRATION CONDITIONS OF PESTICIDES IN SAUDI ARABIA

编号	材料要求	材料要求(中文)
1-	Registration Certificate: issued by authorities (Ministry of Agriculture, Ministry of Health or EPA). The certificate is required to include Commercial Name, Common Name, Registration number, and an indication that the product is registered under supplier's name in country of origin, and it is freely sold therein. Certificate to be in English, and legalized by Saudi Embassy.	制剂登记证 使馆认证
2-	Certificate of Analysis: to indicate pesticide analysis in detail: formulation (EC, WP, ..., etc..) common name, chemical name; active ingredient mentioning commercial name, chemical name; inert in detail, solvents, carriers, emulsifiers, diluents, wetting agents etc... in liquid preparation; Certificate to specify concentration as w/v , w/w or gm / Litre. Certificate to be issued by governmental or independent laboratory (excluding producer laboratory) and legalized by Saudi Embassy.	制剂 COA 使馆认证
3-	The Origin of Active Ingredient: Certificate is required to indicate the source of the active ingredient and the name of manufacturing company; issued by the governmental entity concerned and legalized by Saudi Embassy.	原药来源 使馆认证 原药 ICAMA
4-	Letter from the producer of active ingredient: The formulator has to present a letter from the producer of pure active ingredient that he is still dealing with him, because in many cases harmful materials were found contained in the pure ingredients.	原药生产商证明信 (证明已经和制剂商合作) 原药授权制剂商的授权信
5-	Purity of Active Ingredient: Maximum-Minimum.	原药含量
6-	Method of Analysis: report to show in detail the laboratory method of analysis, and how could laboratory ascertain the purity of active ingredient, indicating the formula used, if any.	原药 , 制剂分析方法
7-	Technical Report: to show chemical, physical and biological properties of the pesticide and its uses.	技术性报告

8-	Brochure for Manufacturing Process: showing manufacturing process in details (including all necessary details as in some cases the method affects stability and causes corrosion and explosion of the pesticide).	生产过程 (制剂)
9-	Storage Certificate: issued by manufacturing company to indicate that the product is stable for two years at least at local temperature in Saudi Arabia, and to explain that the test has been done at (± 2 C ⁰) 50 centigrade for 15 days and the producer has done test for two years.	储藏稳定性
10-	Label: The same label used in country of origin that indicates pesticide type (insecticide, herbicide, etc..), commercial name, chemical name and percentage, packing size, producer name, country of origin, target pests, target crops, rate of application and uses, production and expiry dates, weight or volume in metric units, sign of pesticide category (red sign or caution), first aid, antidote, precautions, storage and registration number in Saudi Arabia.	标签
11-	Residue Data Sheet: to show in details the performance of residues in water, soil and crops indicating the maximum residue levels (MRLs).	残留数据
12-	Material Safety Data Sheet.	MSDS (制剂)
13-	Toxicity Report: to show toxicity in rats, and results of rats exposure to pesticide.	制剂急性毒理报告
14-	Application Form of Pesticide Registration in KSA: to be filled-in by the manufacturer, and returned signed and stamped.	申请的 form (需生产商签字盖章)
15-	Authorization Letter from the supplier to his agent in Saudi Arabia (DAR ALFIRASAH AGRICULTURAL Est.) to introduce the registration file to Ministry of Agriculture for registration.	授权信
16-	Real samples from formulated product (6 samples, 500 ml each) with English label: to be introduced to MoA for the official registration trials.	制剂样品
17-	Real samples from the Standard Analytical Material of active	原药标样

	ingredient (2 – 3 grams).	
18-	Saudi Ministry of Agriculture registers the product for the basic manufacturer/formulator through their agent in Saudi Arabia.	
19-	When registration conditions satisfied, the MoA issues a registration certificate indicating amongst other information the registration number of the pesticide. The registration number consists of three parts. The first part Indicates the serial number of the pesticide, the 2 nd part stands for the importer, and the 3 rd part refers to the active ingredient.	
20-	If the pesticide contains more than one active ingredient, the registration certificate shows only the active ingredient of higher concentration ratio.	
21-	Arabic translation for the label (5 copies) containing the trade name, active ingredient and its concentration, application method, withholding period, target crops, target pests, first aid, precautions, caution mark, manufacturing date, expiry date, manufacturing company, importing company and any other important information.	
22-	Registration is valid for 5 years from registration certificate date, and the ministry maintains the right to cancel the registration at any time within validity period.	

第二种要求

1.	Application form filled and stamped by manufacturing in letter head paper.	
2.	Original legalized Certificate of registration of Finished Product. in country of origin.	
3.	Original legalized Certificate of registration of Technical material in country of origin or Free sale certificate, or the source of active ingredient.	
4.	Original legalized Certificate of analysis and composition up to 100% for technical material and Finished Product.	
5.	Original Letter of Authorization.

6.	Original Storage declaration.	
7.	MSDS	
8.	Toxicology study in details (Acute, sub-chronic and chronic)	
9.	Method of analysis.	
10.	Environmental fate study (soil, water, plant,..)	
11.	Residue analysis and study in (plant, water, soil, ...)	
12.	Manufacturing Process.	
13.	Sticker label from country of origin.	
14.	registration certificate & coa , authorization certificate to be attested by Saudi Embassy
